

## DESCRIPTION

The MS3782 is a slim, plug-in PWM converter that converts DC current or voltage input signals into PWM signals and provides isolated single or dual output.

MS3700

## **SPECIFICATIONS**

| POWER SECTION   |                            |                   |  |
|---|----------------------------|-------------------|--|
| Power   | 100 to 240V AC: 85         | to 264V AC (47    |  |
| Requirements  | to 63Hz)                   |                   |  |
| -   | 24V DC: 24V DC±1           | 0%                |  |
|   | 100 to 240V DC: 85         | to 264V DC        |  |
| Power Sensitivity   | Better than $\pm 0.1\%$ of |                   |  |
|   | power supply range.        |                   |  |
| Power Line Fuse   | 160mA fuse is instal       | led (standard).   |  |
| Power Consumption   |                            |                   |  |
|   | 0-240V AC 24V DC           | C 100-240V DC     |  |
| Single Output 6   | .0VA max 1.8W ma           | x 2.0W max        |  |
| Dual Output 6   | .5VA max 2.0W ma           | x 2.5W max        |  |
|   |                            |                   |  |
| Input Resistance  |                            |                   |  |
| Voltage Input (DC)  | With or without pov        | wer: 1MΩ min.     |  |
| Current Input (DC)  | 4 to 20mA (std.)           | 250Ω              |  |
|   | 2 to 10mA                  | 250Ω              |  |
|   | 1 to 5 mA                  | 100Ω              |  |
|   | 0 to 20mA                  | 250Ω              |  |
|   | 10 to 50mA                 | 10Ω               |  |
| Allowable Input Voltage                                       |                            |                   |  |
| Voltage Input Model   | 30V DC max., conti         | nuous. (Standard  |  |
|   | for a span up to 10V       | )                 |  |
| Current Input Model   | 40mA DC max., con          | tinuous.          |  |
|   | (Standard for 4 to 20      | )mA)              |  |
| Ranges Available  | <b>`</b>                   |                   |  |
| C C   | Current Signal             | Voltage Signal    |  |
| Input Range (DC)  | -100 to 100mA              | -10 to 10V        |  |
| Input Span (DC)   | 100µA*1 to 200mA           | 200mV*2 to 20V    |  |
| Input Bias  | -100 to 100%               | -100 to 100%      |  |
|   | range including negativ    | ve input signals, |  |
| the input spans for current and voltage signals range         |                            |                   |  |
| from $(^{*1})200\mu$ A to 200mA and $(^{*2})400$ mV to 20V,   |                            |                   |  |
| respectively.   |                            |                   |  |
| Input Spec. Ex.1: For 3 to 8V input, the input span is 5V and |                            |                   |  |
| the bias +60%.  |                            |                   |  |
| Input Spec. Ex. 2: For -5 to 0V input, the input span is 5V   |                            |                   |  |
| and the bias -100%.   |                            |                   |  |

For an input code of "0": MS3782-A-011 (Input: 0 to 8V/

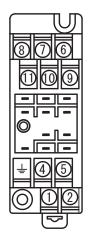

/ 500Hz)

500Hz)

| OUTPUT SECTION  |  |  |
|---|--|--|
| Output Signal   | PWM output ON duty 80 to 0%  |  |
|   | 0% input: Output duty 80%  |  |
|   | 100% input: Output duty 0%   |  |
| (Example 1) Voltage   |  |  |
|   | $ON = 12V \pm 10\%$  |  |
|   | $OFF = 0V \pm 1V$  |  |
| (Example 2) Open of   | collector:   |  |
|   | ON = Low   |  |
|   | OFF = High   |  |
| Note: For any input less than 0%, the output duty will be   |  |  |
| 80%, and for any input more than 100%, it will be   |  |  |
| 0%.   |  |  |
| Maximum Output Load   |  |  |
| TTL Level   | Maximum output 10mA @ 3.5V   |  |
| Voltage Pulse 10V   | Maximum output $7\text{mA} @ \pm 10\%$   |  |
| Voltage Pulse 12V   | Single output model: Maximum   |  |
| 0   | output 15mA @ ±10%   |  |
|   | Dual output model: Maximum output  |  |
|   | $7 \text{mA} @ \pm 10\%$   |  |
| Maximum Rating  | Open collector: 30V, 100mA   |  |
| Output  | Customer-specified value $\pm 30\%$  |  |
| Frequency   | Specify between 10Hz and 1kHz.   |  |
| Zero Adjustment   | Approx. $\pm 5\%$ of span.   |  |
| Zero Aujustinent  | (Adjustable by the front-accessible  |  |
|   | trimmer.)  |  |
| Span Adjustment   | Approx. ±5% of span.   |  |
| opannajaotmont  | (Adjustable by the front-accessible  |  |

|                   | socket)                              |
| Weight            | Main unit: 120g max.                 |
|                   | Socket: 80g max.                     |
| MATERIAL          |                                      |
| Housing           | ABS resin (UL 94V-0)                 |
| Terminal Block    | PBT resin (UL 94V-0)                 |
| Terminal Block    | PC resin (UL 94V-2)                  |
| Cover             |                                      |
| DIN Rail Stopper  | PP resin (UL 94HB)                   |
| Screw Terminal    | Nickel-plated steel                  |
| Contacts Material | Brass with 0.2µm gold plating        |
| and Finish        | ·                                    |
| Printed Circuit   | Glass fabric, epoxy resin            |
| Board             | (FR-4: UL 94V-0)                     |
|                   |                                      |

## TERMINAL ASSIGNMENTS

| (1)        | P (+) POWER |
|------------|-------------|
| 2          |             |
| -          | GND         |
| 4          | + OUTPUT 1  |
| (5)        | - OUTPUT 1  |
| 6          | N.C.        |
| $\bigcirc$ | + OUTPUT 2  |
| 8          | – OUTPUT 2  |
| 9          | + INPUT     |
| (10)       | – INPUT     |
| (1)        | N.C.        |
|            |             |
